

# ELBCLEARING 8

## ELBCLEARING 8

Work boat /  
cargo ferry

### Technical Data

Length o.a.: 36,26 m / Width o.a.: 10,40 m

Dimension of the deck: 30,00 m x 6,35 m

Dimension of the ramp: 6,00 m x 6,00 m

Dimension of the moonpool: 1,25 m x 1,00 m

Loading capacity with anchor piles: 175 to

Loading capacity without anchor piles: 191 to

1x hydraulically operated ramp  
(loading capacity max. 60 ts)

Draft: 1,00 – 1,58 m

Speed: 5,5 kn at the stand of the tide

### Machine type

Main engine: 3 x Deutz F8L 714

Overall Power: KW 272

Propulsion: 3 x main propeller (Schottel rudder propeller)

### Equipment

Anchor piles with rack drive (purely electric TURAS-drive / 270 kN traction with remote control)

Length of anchor piles: 20,0 m

Generator: HIMOINSA HFW-100 TS (voltage: V 400/230)

### Working area

Zones 2-4 and port of Hamburg
